SUMMARY

Adaptive Software Engineer with 4 years of experience in developing user interfaces, building responsive applications, and improving UI functionality. Specialties include: developing and maintaining an application, fixing bugs, writing unit tests, experience in Agile workflows and test-driven development. I enjoy creating user-friendly, accessible, and scalable front-end solutions.

EXPERIENCE

GlobalLogic, Lviv — *Software Developer*

Jan 2022 - PRESENT

- Designed, developed, and maintained a high-traffic streaming application, improving UI functionality and performance.
- Created 2-4 pull requests per week, implementing bug fixes, UI enhancements, and new features.
- Collaborated with cross-functional teams (designers, back-end developers, QA) to ensure seamless user experience.
- Wrote unit tests to improve code reliability and maintainability.
- Followed Agile methodologies (Scrum, Sprint Cycles, Daily Standups) for efficient workflow.
